## **Mixers**

- Ergonomic handles on the drive unit: low weight, fatigue-free arm posture and upright body posture allow comfortable, ergonomic operation. With anti-slip coating
- Four corner guards with rubber buffer and inserted metal plate provide secure storage during transportation and offer protection against shocks and impacts at the building site
- Protective cap above the motor housing guides the cooling air flow and prevents the ingress of rain water
- The flexible rubber grommet over the on/off switch prevents the ingress of dirt. No malfunctions caused by jammed switches
- With 4 metres H07-RNF cable
- Perfect for mixing low-quantity mixtures up to 25 kg. Thus mixer is ideal for tilers and painters
- With mixing paddle for mixture: pasty to tough. Tile adhesive, grout, filler compound, adhesive, finished plaster, adhesive mortar, ...
- This machine is also available in 110 V
