Safety vacuum cleaner with manual filter cleaning system, 20 l, class L

- Handy and compact vacuum cleaner, easy to use and easy to transport
- The high-performance turbine ensures both a high suction capacity and a high vacuum. The outcome is an excellent extraction result
- By actuating manual filter cleaning, dust deposited in the filter element is removed by a targeted blast of air.
- Level monitor, no malfunctions when drawing in liquids thanks to installed float valve
- With appliance socket and electronic automatic switch on/off
- Equipped with large wheels and two swivel guide rollers
- Suitable for increased stress when used commercially. Ideal for cleaning work in offices, storage rooms, workshops and vehicles. Smaller electric power tools, e.g. palm sander, delta sander, random-orbit sander, jigsaws, are primarily used for extraction work. Tools which produce fairly low amounts of dust
- With blowing function for the easy removal of leaves in outside areas such as drive ways
- Features a filter bag made of highly tear-proof fleece for optimum filling. The extracted dust can be disposed of without difficulty
- Safety vacuum cleaner, approved for dust class L, suitable for all dust with OEL value >1 mg/m³
